Objective

Aspiring Full-Stack Web Developer who has completed extensive coursework at the University of Washington's bootcamp and honed skills in the back and front end. Eager to support teams in enhancing the user experience and increasing the bottom line.

Technical Skills

Frontend: HTML5; CSS; JQuery; JavaScript; Bootstrap
Backend: Node.js

Projects

Code Quiz | [codeQuiz](#) | Deployed

Created myself to finish off the JavaScript unit for week 4 of boot camp.

- Allows for a user to take a simple code quiz to test their knowledge.
- A user will input their answers by selecting through multiple choice. If an answer is incorrect the timer will decrease. After quiz is done their high score can be recorded within local storage.
- Tools/Languages: HTML; CSS; JavaScript

Weather Dashboard | [weatherDashboard](#) | Deployed

Created myself to finish off API call section for week 6 of boot camp.

- Allows for a user to check a cities weather and 5-day forecast.
- A user will input any city that they can think of to check the current weather and the next 5-days weather. They can save their history within local storage. I was required to call an API for each search that was inputted.
- Tools/Languages: HTML; CSS; JavaScript

Professional README Generator | [professionalReadMe](#) | Deployed

Created myself to begin my journey working with Node in the backend.

- Allows for a user to generate a README.md file without making one themselves.
- A user must download the application and the NPM inquirer to be able to run this application. By using their console they can answer prompted questions to fill out all requirements for a professional README.md file.
- Tools/Languages: HTML; JavaScript; Node.js

Work Experience

Quiznos

08/2018 - currently

Store Manager
Duvall, WA

- Currently overseeing store operations and training incoming staff on best practices.
- Increased store efficiency and sales 20% with good communication and active participation with COVID changes.
- Expanded opportunities by purchasing and creating Quiznos Food Truck.

Arby's

09/2017 - 05/2018

Backline; Cash Register
Ellensburg, WA

- Performed customer service in a fast-paced environment, which included answering client inquiries and supporting cash register operations.

ACCESS Advising

10/2015 - 05/2017
